

THE ANIMAL SHELTER IS HERE TO SERVE THE COMMUNITY!

The shelter is required to house cruelty case and quarantine (bite case) animals for an extended period. It is also a haven for stray, lost, or abandoned animals that have no other options.

Our goal is to keep owned animals **OUT** of the shelter entirely due to the high levels of stress and exposure to animals with unknown medical histories.

The Terrebonne Parish Animal Shelter is an open-intake facility. Because of this, the shelter is usually operating at max-capacity forcing difficult decisions to be made sometimes.

WHAT HAPPENS IF YOU SURRENDER YOUR PET?

Although we do aim for adoption, we **CANNOT GUARANTEE** that every animal coming into the shelter will have a positive outcome.

Have you exhausted all options of trying to rehome your pet(s) and are still interested in surrendering to the animal shelter?

Please fill out a pet surrender form at tpcg.org/petsurrenderform.

MEDICAL RESOURCES

VETERINARY ASSISTANCE GRANT

Find support for incidental and chronic issues that are causing a pet pain and suffering. This program provides sponsored veterinary visits for low-income owners of pets who are not otherwise able to access veterinary care. These grants are meant to close a small gap in care. **Please note this program does not handle emergencies.**
